

CABINET IS FILLED
BY THE PRESIDENTJUDSON HARMON OF OHIO,
ATTORNEY GENERAL.

Richard Olney Placed In Charge of the Secretary of State's Office—The Appointment of Harmon a Great Surprise as He Was Scarcely Known.

Washington, June 8.—President Cleveland yesterday announced the appointment of Richard Olney of Massachusetts to be secretary of state and Judson Harmon of Ohio to be attorney-general.

The announcement of Mr. Olney's promotion caused no surprise, as it had been expected, but the nomination of Harmon caused a sensation, as his name had not been mentioned in connection with the vacancy.

Mr. Harmon is about 50 years old, has been a judge of the Common Pleas in Cincinnati, and at present is one of the counsel of the "Big Four" and other railroads. Two of the most important vacancies in the federal service have been filled by the selection

SECRETARY OF STATE OLNEY.

of Ohio men and both have come from Cincinnati—Mr. Aiken, who was selected for supervising architect, and Judge Harmon, who was named yesterday.

It is probable that Mr. Olney will take the oath of office today as the head of the state department. The president at one time contemplated other changes in his cabinet and a rearrangement of several portfolios, and in this connection consideration was given to the transfer of Secretary Smith to the department of justice, but this and other transfers were finally abandoned, and the president concluded that the simplest plan would be merely to fill the vacancy caused by Mr. Olney's promotion.

There is the best authority for the statement that the president had several men under consideration for the portfolio of justice, and it might have been had by Mr. James C. Carter of New York, who was counsel for the government before the Bering sea tribunal and in the income-tax cases, or by Mr. Frederick R. Coudert of New York, had either been disposed to accept it.

Secretary Carlisle knew Judge Harmon personally, and both admired and respected his ability. Ex-Gov. Campbell of Ohio is a close friend of Judge Harmon. The president secured from ex-Gov. Hoadley of Ohio, who is now living in New York and whose law partner Judge Harmon is, most favorable reports as to his ability and standing. After canvassing the situation thoroughly the president offered the portfolio of justice to Judge Harmon by wire yesterday afternoon, and immediately upon receiving a favorable reply announced the appointments.

JUDGE HARMON SURPRISED.

The Nomination Entirely Unlooked for by the New Attorney-General.

Columbus, O., June 8.—Judge Harmon, the new attorney-general, arrived in the city last night. "If any one had told me yesterday," he said, "that I was to be appointed to a cabinet position, I would have thought he was talking 'through his hat.' The last time I saw President Cleveland was in Columbus at the time of the Thurman banquet six years ago. Yesterday morning I received a letter from him asking me if I would accept the position of attorney-general. As I did not wish to reply without consulting my law partner, Judge Colston, who is in New York, I immediately telegraphed him and securing his consent at 2 o'clock telegraphed President Cleveland that I would accept. I have not received any official notification of my appointment."

When Judge Warrington, who was present, remarked that Judge Harmon would leave one of the most lucrative law practices in the state the latter remarked that the position of attorney-general was one that would tempt any one who loved his practice. Judge Harmon will probably leave for Washington Monday.

SKETCH OF HIS LIFE.

One of the Foremost Lawyers and Jurists of Ohio.

Cincinnati, O., June 8.—When the appointment of Judge Judson Harmon to be attorney-general became known here attorneys from the courts and offices rushed to the office of Harmon, Colston, Goldsmith & Hoadley to congratulate the new cabinet officer and ask him to fix a date for a farewell dinner from the bar. Judge Harmon is not only recognized as one of the foremost lawyers and jurists of this state, but one of the most popular citizens. He was born near this city forty-nine years ago, has always lived here and is known by all. His father, the Rev. B. F. Harmon, was a Baptist minister, well known throughout the Ohio valley. Judge Harmon was graduated at Dennison university, a Baptist institution at Granville, O., in 1866, and began the practice of law in Cincinnati in 1869.

He was a republican till 1872, when he joined the Greeley movement. He was elected superior judge in 1873, re-elected in 1882, and when ex-Gov. George Hoadley went to New York in 1887 Judge Har-

mon was elected to the position of attorney-general. He was born in 1846, and was educated at Dennison university, a Baptist institution at Granville, O., in 1866, and began the practice of law in Cincinnati in 1869.

THEY WILL ALL BE THERE.

Immense Attendance Promised at Republican National League Convention.

Cleveland, O., June 8.—Word has been received at the headquarters of the general committee having in charge arrangements for the Republican National League convention, to be held in Cleveland, June 19 to 21, inclusive, that the state leagues throughout the country are taking great interest in the coming event, and aside from the delegates there will be from 15,000 to 20,000 visitors in the city at that time. Colorado will run a "silver" special train on which will be 300 boomers for free silver. Oregon will send a special car containing a full representation. Nebraska is coming on a special train. Iowa will have 200 men in line. Michigan will be in attendance 500 strong, also accompanied by a band. Illinois and Indiana will not be behind, each sending from 500 to 1,000 men. Missouri, Arkansas, Texas and Kansas will all be represented by large delegations. Tennessee will send a delegation of 300. West Virginia is coming on a special train, 150 strong. This is the first attempt that West Virginia has made to attend a league convention. New York and Pennsylvania will each turn out delegations of not less than 1,000. Maryland, Delaware, Connecticut, Massachusetts, Vermont, New Hampshire and Maine each expects a full representation. South Carolina announces the fact that it will send four delegates.

The Central Traffic association has extended the limit on tickets until June 30 thereby giving to delegates and visitors twelve days instead of four, as originally made out.

RIOTS IN SOUTH CAROLINA.

Trouble at the Bulow Mines Has Become Serious.

Charleston, S. C., June 8.—Trouble that has been brewing at the Bulow mines, a few miles from here, for some days reached a climax yesterday. The trouble started last Monday, when a number of phosphate field hands went on a strike. Thursday afternoon it was reported in the city that the men had grown unruly, and this information was confirmed yesterday, when it was learned that matters had gotten serious enough to demand the attention of Sheriff Morrison and a large posse of deputies. Nine arrests were made, and when the sheriff was bringing in his prisoners an attempt was made to rescue them. The negroes fired upon the sheriff and posse from the woods, striking one man, and the attacking party began to advance in a menacing manner. The sheriff ordered his men to return the fire. The negroes broke and ran in every direction. It is not known how many of them, if any, were hurt.

Alabama Silver Men Organize.

Birmingham, Ala., June 8.—A call was issued yesterday by the executive committee of the Alabama Democratic Silver League urging every Democrat to organize leagues in every county in the state. The call adds: "It is expected that when these leagues are organized a consultation will be held and the state convention called to further the views entertained by Democrats who believe in free coinage. It is explained that the next thirty days that further action may be by correspondence and joint agreement be had."

Preacher Starved to Death.

Guthrie, O. T., June 8.—Rev. John P. Smith, a Baptist country preacher ten days ago, has been found lying dead along the roadside in an adjoining county. He had been in poor health for a long time and stole some meat to keep his wife and little children from starving, and was arrested and convicted of the theft, and sentenced to five years in the penitentiary. Feeling his punishment too great, he broke from jail and met death from exposure and starvation.

Queen Victoria in Danger.

Edinburgh, June 8.—The little town of Ballater, near Balmoral, where the queen is stopping, was startled late last evening by the reckless firing of a revolver in the streets. The young man who fired the pistol was arrested, and it was found that he had in his possession a paper addressed to Queen Victoria, whom he intended to visit. A doctor who examined the young man expressed the opinion that he was insane.

To Discuss Currency Question.

Indianapolis, Ind., June 8.—The executive committee of the Democratic state editorial association yesterday issued a call for a meeting of the association at Maxinkuckee, June 27 and 28, to discuss the currency question. This step was taken after Chairman Taggart of the state committee had finally declined to call a state convention to discuss the subject. Democrats from all parts of the state have been invited to attend the meeting, and a lively session is looked for.

Russia Doesn't Want War.

St. Petersburg, June 8.—The opinion prevails among officials here that Russia, while doing the best possible under the circumstances for the welfare of the Armenians, will not pick a conflict with Turkey, as the development of the question in the extreme direction advocated by the English press would only endanger the quietude of Russian Armenia, thus proving prejudicial to Russian interests generally.

Prince of Wales Wins Again.

Manchester, Eng., June 8.—Florizel II., owned by the Prince of Wales, won the Manchester Cup today against a large field of horses, which included M. F. Dwyer's Banquet II.

THE TIDE OF TRADE
IS ON THE RAISEBUSINESS OUTLOOK OF THE
COUNTRY IS BRIGHT.

Dun's Weekly Review Shows a Gratifying Increase in General Prosperity and the Gain Has Been Rapid—Demand For Money Expands—The Failures For the Week.

New York, June 8.—R. G. Dun & Co.'s Weekly Review of Trade, says: "The tide of business is rising, even as it was falling just two years ago, with surprising rapidity. The gain has gone so far and so fast in some branches that the more conservative fear it may not be maintained. But the period of dullness which comes in each market after an unusual rise brings as yet nothing like a corresponding decline. Industries gain much, half or fall back a little, and then gain once more. The demand for consumption steadily increases as the employment and wages of the people increase."

"Demand for money expands, one bank reporting 29 per cent larger in the discounts for the country and another 33 per cent more commercial loans than a year ago, and all but two report some gain. The serious question remains whether the crop will be full enough to sustain a large business. But the worst reports to-day are better by far than the estimates recently current. Wheat rose 2 cents, fell back 2, with realizing, and has again risen 2, with a western estimate of a crop 80,000,000 bushels smaller than last year. It is pertinent to remember that official and most unofficial reports, down to a late period last fall, put the yield about 80,000,000 bushels lower than it is now known to have been. Western receipts were 264,000 more than last year, and in five weeks have been 7,671,031 bushels, against 6,911,650 last year, while Atlantic exports, flour included, 670,000 bushels smaller for the week, have been in five weeks 7,738,828 bushels, against 11,945,478 last year. There is neither holding back by farmers nor anxious haste in purchasing by foreigners to support belief in scarcity. Cotton declined an eighth with better weather at the south, but excitement and prices rose again with the report of only 11.6 per cent decrease in acreage. Much greater decrease had been called for, but condition is reported less favorable than last year. June began with 9,553,393 bales already in sight, and 3,302,350 American remaining in commercial stocks, while European spinners held May 1 over a million bales, according to Ellison."

"Iron pushed upward like the great buildings into which so much of it goes, and the advance in finished products has become general. Of structural steel 12,600 tons were turned out in May by the Homestead works, breaking the record, and prices rose to 1.3 cents per beam, and 1.2 for angles. Coke producers are said to have substantially agreed upon sales by an agency and allotment of the output and an advance in price to \$1.50 or higher. Chicago works are in full operation, though the demands from agricultural implement makers lags because the coming harvest is in doubt. Failures for the week have been 195 for the United States against 216 last year, and 25 in Canada against 40 last year."

RELAY RACE BREAKS RECORDS.

"Red" and "Blue" Messages Reach Gen. Miles Early This Morning.

New York, June 8.—The great relay bicycle race of the red and the blue between Chicago and this city was finished at 1:56 o'clock this morning. The actual time of the race was 65 hours and 53 minutes. They broke all American records for a relay race. The start was at Chicago at 9:30 o'clock last Wednesday morning. The race was organized practically by Gen. Nelson A. Miles to demonstrate the effectiveness of bicycles in military service. The "blue" riders represent the military, the "red" the postal service. The red message was followed at 2:39 a. m. by the blue message.

Taylor Said to Be in Custody.

Sioux City, Iowa, June 8.—A Sioux City man, a relative of Attorney-General Crawford of South Dakota, claims to have a direct tip from the latter that W. W. Taylor, the defaulting treasurer of South Dakota, has been captured and is now on his way to Pierre. The gentleman says that he knows none of the particulars of the capture, nor even where it was made, but is sure the story is true. A telegram has been sent to Mr. Crawford, who denies all knowledge of the matter.

President Thanked by China.

Washington, June 8.—The Chinese minister here, in company with Acting Secretary of State Uhl and accompanied by his secretary of legation and interpreter, waited in person upon the president yesterday and presented to him a letter from the emperor of China thanking him in graceful terms for the kindly offices exercised by the United States in behalf of the restoration of peace between China and Japan. The imperial communication was in the Chinese language, handsomely incased in royal yellow silk.

Murderers Sell Their Bodies.

Birmingham, Ala., June 8.—Lee Harris and Abe Mitchell, colored murderers, highwaymen, and thieves, were hanged in the jail yard here at noon yesterday. Both bodies were turned over to an undertaker who purchased them several weeks back for \$15 from the men themselves.

Prince of Wales Wins Again.

Manchester, Eng., June 8.—Florizel II., owned by the Prince of Wales, won the Manchester Cup today against a large field of horses, which included M. F. Dwyer's Banquet II.

SMALL WAR LIKELY
OUT IN COLORADOTHE CATTLE MEN DRIVE THE
SHEEP RAISERS AWAY.

Latter Are Forced to Relinquish Valuable Grazing Lands and Take Their Flocks into Wyoming Thereby Avoiding a Bloody Conflict—Eight Hundred Armed Men Massed.

Hayden, Col., June 8.—All day Thursday and Friday night cattlemen armed to the teeth arrived, through blinding snow and rain storms, from over the ranges and from the timbered valleys to organize for the war of extermination of the sheep business. Some came 125 miles and were almost exhausted by their rapid traveling, but were ready to push forward. Thursday night a mass-meeting was held here, after which an executive session was held for the purpose of selecting a leader.

Orders were issued, a train of commissary wagons provided, and at 9:30 in the morning over 800 men with Winchester set out for Elk Creek. Bands are going over the hills, mountains from Craig and Hahn's peak to flank the sheepmen in California park. A runner has been sent on ahead to warn the men to get their sheep into Wyoming at once. Resistance will certainly bring on a conflict.

The report came here that the sheepmen had employed a band of Pinkertons and were scheming for delay so that their re-enforcements might arrive. This has greatly excited the cattlemen, and they declare they will waste no time in getting down to business when they meet the sheepmen.

SHEEPMEN GIVE UP.

Say Force of Numbers Compels Them to Leave the Country.

Denver, Col., June 8.—Advices from Wyoming points show that the sheepmen have about decided to withdraw entirely from Routt and Rio Blanca counties, where they have kept their flocks for many years. While maintaining that they have rights to the grazing grounds, they submit to the force of numbers and undoubted determination of the cattlemen. They will retire to the Union Pacific line, sell their sheep and quit, leaving the beautiful grazing country to the cattlemen, who in anticipation of this action have already arranged to drive in thousands of head of cattle. The presence of such a strong army of armed cowboys is a menace, however, and a conflict may be precipitated before the sheepmen are able to get away.

HARRITY WRITES A LETTER.

Chairman of National Democratic Committee Will Not Call a Convention.

Philadelphia, Pa., June 8.—Chairman William Harrity of the Democratic national convention committee has received a number of inquiries as to whether he intended to call a meeting of the committee at an early date to decide whether or not a national convention should be called to take action on the money question. In order to relieve the minds of anxious Democrats with regard to the matter he has written the following open letter:

"Philadelphia, Pa., June 6.—I do not expect or intend to call a meeting of the Democratic national committee until next winter, when it will meet for the purpose of fixing the time and place for holding the Democratic national convention of 1896, unless I shall be requested to do so by the requisite number of the Democratic national committee. I don't believe there is any necessity for a convention at this time; on the contrary I am of the opinion that to call one now would be harmful to the business interests of the country and prejudicial to the welfare of the Democratic party."

WILLIAM F. HARRITY.

"Chairman National Democratic Committee."

Mr. Harrity said he had nothing to add to what is contained in this letter.

FLOODS IN EUROPE.

Many Deaths Reported from Various Points.

London, June 8.—A dispatch to the Daily News from Vienna says reports from Kobersdorf makes it evident 100 persons are missing at that place as a result of the mountain floods. Eighteen dead bodies have been recovered.

Oldenburg, June 8.—Reports received here say Kobersdorf, a Hungary watering place, has been submerged by the sudden freshets of the swollen mountain streams. Twelve persons are missing. The torrents swept the country, carrying away many of the massive bridges, and the peasants fled to the hills for refuge. Many families are reported homeless.

Paris, June 8.—Floods are prevailing in the north of Spain and the southwest of France. The rivers have overflowed in various districts of Navarre.

All Quiet in Formosa.

Hong Kong, June 8.—Advices from Formosa indicate that chaos is rapidly giving way to order now that the Japanese troops have reached Taipei and established headquarters at that point. The natives of Formosa are submitting readily to the rule of the Japanese. The Japanese losses during the military movement in occupying the island amount to only eight men. The Chinese carried away millions of dollars' worth of property from the Chinese fortifications during the firing which followed the detention of the steamer of ex-Governor and ex-President Tang Ching, who was making an effort to escape from the island.

Attempt to Lynch a Tramp.

Los Angeles, Cal., June 8.—Patrick Conley, a tramp, was arrested yesterday charged with assaulting Minnie Prayer, a 10-year-old girl. A mob attempted to lynch him.

LEGACY TAX BILL PASSES.

Illinois House Adopts the Measure by a Vote of 84 to 34.

Springfield, Ill., June 8.—The house yesterday spent most of the time in discussing Coon's senate bill for the taxation of gifts, legacies and inheritances exceeding \$20,000. The bill was passed—yeas, 84; nays, 34. The hard road bill, which was introduced in the interest of bicycle riders, was read a third time and then action was postponed until Wednesday. This practically kills the bill, as at that time the session will be so near an end that it will be impossible to get it through.

In the senate Berry tried to call up the house bill to prevent the coloring of oleomargarine yellow to make it resemble butter. Objections were made to taking up the measure and a roll call was ordered, resulting in Berry's defeat. Little moved a reconsideration of the vote by which Kingsbury's bill providing for food and scales inspectors was defeated and consideration of the motion was made a special order for Tuesday. Dudley's bill, which practically prohibits children under 14 years from appearing as performers in a circus or on a theatrical stage, was advanced to a second reading without reference. The bill to prevent the stealing of electricity by tapping wires went to a second reading without reference to a committee. The house bill to prevent the use of tape and clock devices was advanced. Hunter's bill establishing a vaccine farm at the state university was passed. Bogardus' bill to appropriate \$25,000 for a survey of the Illinois valley for a shipway from Lake Michigan to the Mississippi river was passed. Salomon tried to call up his department store bills, but objections were made and his motion to suspend the rules was defeated. The senate then adjourned until 5 o'clock Monday, with an agreement that nothing should be done until Tuesday's session.

Foreign Residents in Danger.

London, June 8.—Advices received from Jiddah are to the effect that the situation is considered very grave for the Europeans. Very few troops are in town and the townspeople generally are pleased at the attack of the Bedouins upon the foreign consuls. Religious feelings are running very high. Unless something is immediately done by the powers to enforce among the natives respect for European lives foreigners will not be safe in the vicinity of Jiddah. A general Bedouin rebellion is among the probabilities.

Wheat Shortage at St. Louis.

St. Louis, Mo., June 8.—The visible supply of wheat in this city continues to decline. The receipts are most painfully light and the daily business is eating into the stock. The question is just what day the crash will come and the announcement be made that there is no wheat to deliver. When this comes, with the large outstanding contracts, wheat will go up out of reach.

Johnson Challenges Zimmerman.

Syracuse, N. Y., June 8.—Tom Eck, manager for John S. Johnson, has challenged A. A. Zimmerman for a race at Grand Rapids, Mich., for \$2,500, July 5, mile heats, best three in five, or three to five mile dash, paced by Quad. In addition to this Eck has received an offer of \$2,000 from the Pennsylvania Bicycle club for a match between Zimmerman and Johnson June 29.

Inspector McLaughlin Convicted.

New York, June 8.—The jury in the case of Inspector McLaughlin returned a verdict of guilty of extortion and bribery. When the jury announced its verdict Inspector McLaughlin completely collapsed. The prisoner was at once given into the charge of a deputy sheriff, who took him to the Tombs and locked him up.

Three Lead Miners Killed.

Bismarck, Mo., June 8.—A portion of the Doe Run lead mine at Flat River has caved in, killing three men. The dead: Robert Penbry, Robert Labuure, John Decrous.

SLAIN BY ROBBERS
IN HIS OWN HOMEBRUTAL MURDER AT OCONTO
LAST NIGHT.

Saloonist Michael Baumgardner Shot Down By Thieves Who Secure \$90 and Make Their Escape—Mrs. Baumgardner Sees Her Husband Fall Dead.

Oconto, June 8.—[Special]—Michael Baumgardner, a saloonkeeper, was murdered by two robbers in his saloon last night, he being shot twice in the head. The robbers then secured \$90, and made their escape. Mrs. Baumgardner, who was attracted to the scene by the shooting, arrived just in time to see her husband fall mortally wounded, and the robbers jump into a waiting carriage and lash the horses into a run.

Peculiar Oshkosh Surgical Case.

Oshkosh, June 8.—[Special]—D. B. Curtis, a prominent resident and mason, will bleed to death as the result of having a tooth pulled last night. The hemorrhage resulting was severe, and the doctors say Curtis cannot recover.

The Woodmen at Madison.

Madison, Wis., June 8.—The Modern Woodmen yesterday defeated the change providing for the establishment of an emergency fund. Among the other changes adopted were those of adding to the list of prohibited employments professional foot-ball players, brass-finishers, plow-polishers and submarine operators. It was also voted to establish an executive committee consisting of the head consul, head clerk and a board of directors. It was decided to employ an attorney regularly, who is not to be a member of the council. The camp increased the salary of the head consul from \$2,500 to \$3,600; of the head clerk from \$2,000 to \$3,600, and made the head banker's salary \$2,500. That of the directors was fixed at \$10 a day while actually employed and that of the auditing committee \$8 a day while employed. The date of next head camp was fixed at the second Tuesday of June, 1897. Twenty thousand dollars were appropriated for the new building for the head offices at Rock Island, Ill.

The following officers were elected: Head consul, William A. Northcote, Greenville, Ill.; head clerk, Charles W. Hawes, Fulton, Ill.; head banker, A. H. Hollister, Madison, Wis.; head chaplain, F. F. Farmiloe, Rockford, Ill.; head watchman, E. C. Buckhart, Mexico, Mo.; head sentry, L. E. Mentch, Carey, Ill.; board of directors, J. G. Johnson, Kansas; A. R. Talbot, Nebraska; J. N. Reece, Springfield, Ill.; J. W. White, Rock Falls, Ill.; Marvin Quackenbush, Dundee, Ill.; auditing committee, C. D. Sharrar, Michigan; D. I. Thornton, Missouri; W. A. Doran, Iowa. Head physicians were also elected.

WIFE AND PARAMOUR SHOT.

George Steltzer of Burt, Iowa, Uses a Gun with Good Effect.

Mason City, Iowa, June 8.—There was a big shooting affair at Burt at noon yesterday. George Steltzer returned to his home unexpectedly and discovered his wife and a worthless young man, Fred Heath, in each other's arms. The husband opened fire with a 32 revolver. The woman was hit in the shoulder and young Heath was shot in the arm and side. He escaped through a side door and started for the country on a run. The husband grabbed up a shotgun and started in hot pursuit, and shot at him twice. Steltzer was caught by other parties and disarmed. He was brought to Algona and lodged in jail. It is thought both of the injured parties will recover.

Delaware's Senator Will Fight.

Philadelphia, Pa., June 8.—Col. Henry A. DuPont of Delaware said yesterday: "I was surprised to hear a report was current that I did not intend to claim a seat in the United States senate. It is without foundation. I absolutely approve of the protest made in joint convention of the general assembly against the participation of Gov. Watson in the proceedings of that body, and propose at the proper time and in the proper place to have an adjudication made not only of my claim but of the right of the people of Delaware to be fully represented in the senate of the United States."

New York's Governor Honored.

New York, June 8.—Gov. Morton has been elected a member of the Society of Mayflower Descendants, thus establishing his lineal descent from one of the original pilgrims who landed at Plymouth. Gov. Morton enters the society by virtue of his descent from Mr. Stephen Hopkins.

Aged Couple Divorced.

Wheeling, W. Va., June 8.—The Kanawha County Circuit court granted a divorce yesterday to Mrs. Carney Toney, aged 72, from her husband, aged 90. They had only been married three years, but expressed themselves as having had enough of wedded life. The wife was granted alimony.

To Rescue Lieut. Peary.

St. Johns, N. F., June 8.—The whaleboat Kite has been chartered to carry an expedition of ten persons to Greenland to rescue Lieut. Peary, the Arctic explorer. Emile Diebitsch, Peary's brother-in-law, will have charge of the party, which is to start about the middle of next month.

Yellow Fever Is Raging at Vera Cruz.

Washington, June 8.—An official report received by the surgeon-general of the Marine hospital confirms the report of yellow fever at Vera Cruz, Mexico, and says there were four deaths in that city from the disease during the last week of May.

CAN'T DRAW A LINE ON CITY TEACHERS

THE "NORMAL GRADUATE"
CLAUSE WAS KILLED.

School Board Refuse to Accept the Recommendation of the Committee in Regard to the Qualifications Required But the Balance of the Report Was Unanimously Adopted.

A bomb was thrown on the table last night at the meeting of the school board, but when it exploded no harm resulted, as it was not intended to harm members of the board, but calculated to slaughter those graduates of the high school who are unable to take a further course in the state normal school.

This was the bomb.
"No teacher shall be appointed to fill any vacancy in the grade below the high school unless such teacher shall have taught successfully in some graded school or shall have completed the advance course of some state normal school or as equivalent."

The committee on teachers was responsible for the manufacture of this and also for placing it upon the table of the board, but the fuse was plucked out of it by Commissioners Cunningham, Shearer and Weisend, and then the explosives were thrown into the waste basket.

The meeting of the board was for the purpose of taking action on the report of the committee on teachers and all the commissioners were present except R. W. McLean.

The Report in Full.

The committee on teachers submitted the following:

To the Honorable Board of Education: Your committee on teachers would respectfully report as follows:

In accordance with the progress in education and in every trade and profession, it seems but fitting that the Janesville schools should make some effort to keep abreast of this progress. Schools should not be constructed as they were fifty years ago, yet vacancies in our schools have been filled with those who have had no more preparation for their work as teachers than those who entered on their work a half a century ago. Our schools should have none on their force of teachers but those who have proved their ability to teach in some city system or those who have specially fitted themselves for this work.

With an eye single to the best interests of the school as a whole, and feeling that the schools are supported and organized for the benefit of the pupils and not for those who may desire positions, we recommend the adoption of the following regulation with reference to such vacancies as may occur, and also recommend its publication in the annual report of the board:

(1) No teacher shall be appointed to fill any vacancy in the grades below the high school unless such teacher shall have taught successfully in some graded school or shall have completed the advanced course of some state normal school or equivalent.

(2) The superintendent shall make a list of such applicants as have the qualifications mentioned and shall present the same to the teachers' committee together with a statement of their respective qualifications. From this list the committee shall select teachers to recommend to the board for appointment.

(3) The appointment of all teachers shall be "on trial" for the first year, and if the work is unsatisfactory the teacher may be discharged without notice.

We also recommend:

(a) That an additional teacher be provided for the Douglas school.

(b) That an additional teacher be provided for the Lincoln school.

(c) That an additional teacher be provided for the high school.

(d) That Prof. P. E. Johnson receive \$10 per month additional for the ensuing year.

(e) That Prof. H. C. Buell receive a salary of \$1000 for the ensuing year.

(f) That Miss Lizzie Paterson be appointed as principal of the schools in the Jefferson building, with pay therefor according to the rules.

(g) That Miss Carpenter receive \$45 per month as per schedule.

(h) That the teachers at present employed by the board be re-elected at the salaries paid at present except as far as provided above.

other member of the committee dissented from sections 1 and 2 of this report.

A lengthy discussion followed, Commissioners Anderson, Clemons and Goldin with Superintendent Mayne, favoring the new idea, while Commissioners Cunningham, Shearer and Weisend opposed.

The report, with the exception of sections 1, 2 and 3, was adopted by a unanimous.

Sections 1 and 2 were lost by a vote of ayes, Commissioners Goldin, Clemons and Anderson. Nays, Commissioners Cunningham, Shearer and Weisend.

A vote was then taken on the adoption of section 3, and all voted aye, and it was declared adopted.

A few minor details relating to the new high school were discussed, and the board adjourned.

MUST PAY THE DUE OR DROP THE PACK

PEDDLERS TO SETTLE OR
QUIT BUSINESS.

Receipts Are More This Year Than They Were Last Although Few Peddlers Buy the License Without Being Compelled to—District Attorney Jackson to Assist.

The report of State Treasurer Agent Vernon for May shows that the receipts from peddlers' license during the month were \$3,395. Last year's total receipts were a little less than \$13,000. Nearly half the year's receipts from this source are collected in May, peddlers' license being due May 1. Last year's May receipts were \$5,145. Twenty-five per cent of this amount pays all the expenses of the office, treasury agent, assistant and deputies, the remainder going into the state treasury. There are now 185 deputies in the state, forty or fifty more than there have ever been before, and the peddler who escapes them will have to be a lively one.

Few peddlers voluntarily tender the license money, but on the contrary have to be searched out and sometimes industriously labored with. Efforts to evade payments under the disability clause, when the agent is well satisfied that the claim is not good and the peddler making it simply trying to save his purse, are frequently encountered, and quite a good deal of detective work is required to see that "no guilty man escapes." The annual fees are: Peddlers on foot, \$30; with one horse, \$45; with two horses, \$75. Transient merchants and dealers with whom nearly every town of any size has had some experience, are compelled to pay a license fee of \$50 from date of application to the 30th of April. A fee of 25 cents is added to each license for the state.

District Attorney Jackson is in receipt of blank complaints and copies of the peddlers' law from the state agent at Madison with the request that he interest himself in seeing that the law is lived up to. All other district attorneys have been or will be so favored. Agents are just as willing to issue licenses to old soldiers as to those who pay if the proper record is presented, also to have those who come under the disability provision do peddling. But many parties are found peddling under the disability act, with a doctor's certificate, who are liable for a state license, and they will be apprehended. The intention of the law is that old soldiers and parties disabled will use their license or disability for their own benefit. Many persons, however, are employing cripples under cover of this law to exempt themselves. Officers declare it is only a matter of time when all such will be brought to account.

TALK ABOUT THE LEAF FIELDS.

FILLERS of the '93 crop have been bought extensively during the past week by C. L. Culston, who has picked up 1000 to 1500 cases from packers generally.

SCATTERING patches of the new crop have been planted during the week and the next rain will start this quite generally throughout the growing section.

A FEW of the better grades of '93 are being sought out at prices considerably in advance of the average paid for this crop.

SOME riding is being done from this market and stouthearted dealers have been more active than for some time past.

THE tobacco market is jogging along at the same slow pace with only an occasional feature worthy of mention.

THE plants are now large enough for setting and much of the ground is in readiness to receive them.

ANDREW JENSON reports the purchase of a 48cs lot of '92 and the sale of a 50cs lot of '93.

GAVE AN INFORMAL MUSICAL.

Pleasant Event at the Home of Mr. and Mrs. L. R. Treat.

A very enjoyable musicale was given last evening at the South Third street home of Mr. and Mrs. L. R. Treat. The affair was given in honor of S. H. Hayner of Chicago, who is known as one of the finest viola players in this part of the country, the guests being mostly the musicians who took part in the concert recently given at all Souls church. During the evening a mandolin club composed of R. H. Barlow, G. D. Davis, H. S. Haggart and G. A. Bauman rendered a number of selections, while Miss Hyde favored those present with a number of pleasing solos. Light refreshments were served, and the affair was much enjoyed by all fortunate enough to be present.

Bostwick.

FEW HEARD MR. MERSHON SPEAK.

Small Audience Listened To The Y. P. S. C. E. Lecture Last Evening.

A small audience heard the lecture of S. L. Mer-shon at the Congregational church last night. The affair was under the auspices of the local union of Christian Endeavor societies and Epworth League. The meeting opened with singing by the audience, E. O. Kimberly acting as leader and Miss Jennie Spoon as pianist, after which President D. H. Tennant introduced the speaker very gracefully. Mr. Mer-shon said he felt as if he were lost, strayed or stolen, as he was brought up in a Congregational Sunday school, joined a Dutch Reformed church on probation, married a Methodist wife and was now a member of the Presbyterian church, but he always felt at home with the Christian Endeavorites. He discussed the narrowness of men and made in closing a plea for broad christian thought and for faith in the work. A collection was taken up to pay expenses, at the conclusion of his address and the meeting closed with prayer by Rev. Dr. M. G. Hodge.

PLENTY OF PLACES FOR LIGHTS

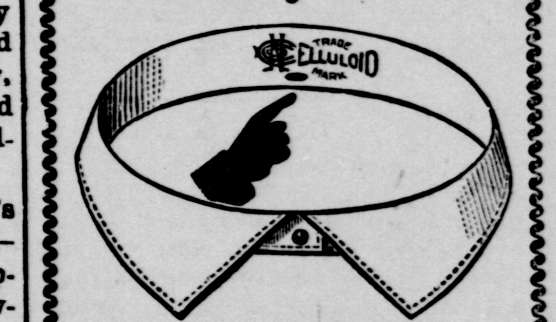

Council Committee Look Over the Field of Oil Lamps.

The electric light committee of the common council was out yesterday surveying the oil lamp district with a view of supplanting the oil lamps with arc lights after September 1 next. It was estimated that this territory could be covered by fifty additional lights; but in their survey the committee found places for sixty-six, and a few of these were placed inside the territory now covered by electric lights. This addition will make a total of 166, which at \$72 per light, will require \$11,952 for one year. This sum, with the \$1,500 indebtedness of the gas fund, will foot up \$13,452. Besides this, it may be safely calculated that a dozen or more lights will be added on petition of taxpayers who chance to be thrown into dark shadows, so that it may be estimated that the cost will be somewhat more than the figures given above.

THE QUEEN.

He knows, the rogue on the tree,
That over mountain and sea
The spring is coming, coming,
Faster than eye can see.
Last week he was stark with cold,
Went heavy, songless and old.
Why, back to the tune he is humming!
'Tis a song for the days of gold.
And her voice that calleth the swallows
Home, and the gold wren follows,
Nearer is coming and nearer,
Thrilling the hills and hollows.
And he knows, the rogue on the tree,
'Tis the queen from over the sea.
Her voice is sweeter and dearer
Than any blackbird's can be.

NONA.

Some years ago I passed several weeks at a fishing village on the coast of Brittany. What a hole it was! But how picturesque! A miserable anchorage, for ten boats at the most, a single stony street, which I can compare to nothing better than a mountain torrent. On top of the hill a church, a veritable gothic toy, which stood in the middle of a cemetery from which a magnificent view of the ocean was obtained. Finding myself in the vein for work, I lingered in this out of the way corner until the end of the month of September, which by a rare chance in rainy Finistere, was that year exceptionally mild and clear.

But one cannot always compose verses and write, and a walk was my hygiene and my distraction. My most frequent promenade was along the beach, having on my right the bleak and rocky cliffs and on my left the uncovered stretches of sand—an immense desert of sand left bare by the outgoing tide. Two or three times I had exchanged civilities with some custom house officer going his rounds, his gun slung over his shoulder. I was so regular and peaceful a promenade that the sea swallows were no longer afraid of me and hopped in front of me, leaving the print of their star shaped feet in the wet sand. I walked six or eight kilometers a day and returned home with my pockets filled with those dainty shells which are found by burying the hand deep down in the damp pebbles.

This was my favorite excursion. However, on the days when a strong breeze was blowing and the tide was very high I abandoned the seashore, and climbing the village street I strolled along the sandy moor, or else I settled myself with a book on a bench in a corner of the cemetery, which was sheltered by the church tower from the west end.

It was a lovely spot, conducive to sadness and reverie. The church tower stood out against the autumn sky, over which dark clouds were scurrying. Crows, whose nests were in the steeple, flew out with their hoarse cawing, and the shadow of their large wings glided over the scattered tombstones, almost hidden in the grass.

In the evening more than at any other time, the last rays of the setting sun bathing the sea as though with blood, the ragged branches of the skeleton of an old apple tree silhouetted against the crimson sky and the deep intense stillness of the wild home of the dead flooded my soul with melancholy.

It was on such an evening as I have just described that, wandering among the tombs, many of which bore under the sailor's name this mournful legend, "Died at sea," I read on a new cross the following words, which astonished and puzzled me: "Here reposes Nona Le Magnet. Died at sea Oct. 26, 1878, at the age of 19."

Died at sea! A young girl! Women hardly ever go out in the fishing boats. How did this happen?

"Well, monsieur," said a gruff voice behind me suddenly, "you are looking at poor Nona's tomb?"

I turned around and recognized an old sailor, with a wooden leg, whose good graces I had acquired by the aid of a few glasses of brandy, which I had given him in the taproom at the inn.

"Yes," I replied. "But I thought that you fishermen never permitted women to go out with you. I have even been told that they bring you misfortune."

"And that is the truth," responded the good man. "Besides, Nona never went into a boat. Would you like to know how the poor little one died? Well, I will tell you.

"First of all, I must tell you that Pierre, her father, was a topman, like myself, and an old comrade. At Bourget, when Admiral La Ronciere raised his golden helmet on the point of his saber, and we flung ourselves, hatched in hand, on the embattled houses, we marched elbow to elbow, Pierre and I, and it was he who received me in his arms when those cursed Prussians put a ball in my thigh. That same evening in the ambulance at the fort Pierre held my hand to give me courage while the surgeon amputated my limb, and he was there at my bedside when the admiral brought me my medal. But those rascally Prussians got the best of us, and we were sent home. I, with my wooden leg, was practically helpless. But Pierre, who was uninjured, hired on board a fishing smack. Very soon afterward his wife died from an intermittent fever, leaving him the care of little Nona, who was going on 10 years of age.

"Naturally while the widower was at sea it was I, his comrade, I, the old bachelor, who cared for the little one. She was a good and pretty child, monsieur; courageous and sweet tempered. We very often went to the rocks at low tide to gather turtles, shrimps, prawn, and sometimes we were fortunate enough to find a lobster. Ah, but we were good friends!

"This went on for about two years. Nona had made her first communion, grown and shot up like a thistle in the sand. But one day the Amelia, Le Magnet's boat, was overtaken in a storm and wrecked. The skipper did not haul in his sail soon enough, and the boat struck on that reef you can see over

there—just a little more to the starboard. There were four men in the crew—the skipper, two sailors and my poor Pierre. But the sea only gave up three of the drowned men and retained my comrade. Nona became an orphan. It goes without saying that I did my best to replace her father. But the child, even after the first sorrow passed away, did not seem to console herself. And do you know why, monsieur? Because of an idea all the women around here have. They believe that a soul must remain in pain unto the judgment day unless it reposes in consecrated ground. We men do not believe in all this nonsense when we know what happens when there is a death on board ship. But Nona could not be forced to believe other than the women had taught her and continued to burn candles at all the pardons in the neighboring towns for the repose of her father's soul.

"However, in spite of everything, time is a famous merchant of forgetfulness, and Nona after a few years appeared to me to become somewhat reconciled. Besides, her grief had not prevented her from growing handsomer and taking a pride in herself, and it is not because I loved her like a father, but, upon my honor, she was the freshest and prettiest young girl in the parish. We lived so happily together. We were not rich, to be sure, but we lived, and we enjoyed ourselves all the same. I had my pension and my medal, and then we used to go together to hunt for lobsters in the rocks. The trade is a paying one, and there is only one danger, that of being overtaken by the tide. Ah, unfortunately that was how she met her death, poor little one!

"One day when my rheumatism confined me to the house she went fishing alone. It was just such a day as today, the sky clear, the wind high. When the rock searchers gathered together with full baskets, they perceived that Nona failed to respond to their calls. There was no possible doubt. Great God, she had been delayed and surrounded by the rising tide! She had been drowned! Ah, what a night I passed, monsieur! At my age, yes, a hard hearted man like me, I sobbed like a woman. And the remembrance came to me of the poor child's belief that to go to heaven she must be interred in consecrated ground. Therefore as soon as the tide went down I went to the shore, and, with the others, searched for the body.

"And we found poor Nona," continued the old sailor in a trembling voice. "We found her on a rock covered with seaweed, where, knowing that she was going to die, the poor little one had prepared herself for death. Yes, monsieur, she had tied her skirts below the knees with her fichu, through modesty, and with her old idea uppermost had attached herself to the seaweed by her hair, her beautiful black hair, certain that she would thus be found and interred in consecrated ground. And I can say, I, who know what bravery is, that there is perhaps not a man brave enough to do likewise."

The old man was silent. By the last gleam of the twilight I saw two great tears rolling down his weather beaten cheeks. We descended to the village side by side in silence. I was profoundly touched by this simple girl's courage, who, even in the agonies of death, had retained the modesty of her sex and the piety of her race, and before me in the distant immensity, in the solitudes of the heavens and the sea, gleamed out the beacon lights and the stars.

Oh, brave men of the sea! Oh, noble Brittany!—From the French of Francois Coppee For Romance.

Narcoti-Cure

CURES THE TOBACCO HABIT
IN 4 TO 10 DAYS
OR MONEY REFUNDED.

Use All the Tobacco You Want Till Your "Craving" is Gone.

Narcoti-Cure is the only remedy in the world that acts directly on the nerves and drives the nicotine from the system in four to ten days. It leaves the patient in better health than before taking, and is warranted free from all injurious ingredients.

Narcoti-Cure is popular because it allows the patient to use all the tobacco he wants while under treatment, or until the "craving" and "hankering" are gone. It is then no sacrifice to throw away tobacco forever.

Narcoti-Cure is sold at the uniform price of \$5 a bottle, and one bottle cures.

Money refunded if a cure is not effected when taken according to directions.

For 46 Years, and Was Cured
by Narcoti-Cure.

AMHERST, Mass., Feb. 8, 1895.

The Narcoti Chemical Co.,
Springfield, Mass.

Gentlemen:—Replying to yours of the 1st would say that I have used tobacco for 46 years and of late have consumed a 10 cent plug a day, besides smoking considerably. I commenced to use tobacco when I was only 11 years old, and have never been able to give up the habit until I took Narcoti-Cure, although I have tried other so-called remedies without effect. After using your remedy four days all "hankering" for chewing disappeared and in four days more smoking became unpleasant. I have no further desire for the weed, and experience no bad effects, whatever. I am gaining flesh, and feel better than I have for a long time. To all who wish to be free from the tobacco habit I would say use Narcoti-Cure.
Yours truly, W. N. WAITE.

If your druggist is unable to give you full particulars about NARCOTI-CURE, send to us for Book of Particulars free, or send \$5 for a bottle by mail.

PROTECTION.

While the tariff issue may not appear prominently on the surface in the next campaign, the principles involved will be the underlying features, because the lessons of the past two years have brought home to the American people in a manner never before experienced, the need of protection to American labor. All of the arguments advanced by democratic statesmen and leaders in favor of tariff reform, count for naught in the light of stubborn facts with which the country is confronted and while the laboring man in enforced idleness has witnessed the product of other countries come to our shores in liberal quantities, the idea of protection to American labor has grown upon him, until he realizes as never before, that competition with foreign labor means not only reduced wages, but it may mean idleness and poverty for time to come.

Why the poor man was ever led to believe that the democratic party was his best political friend, is one of the mysteries that no intelligent man has ever attempted to explain, friendship is something more than a profession. The saloon with its cozy corner and attending environments, may profess to be the poor man's friend, and yet any sane man knows that it is his worst enemy. Democracy sustains in a degree the same relation. A party that advocates freedom in the broadest sense, "freedom of action," "freedom of speech," "every man a law to himself," "personal liberty," "free trade," "free silver," and "free whisky," all very alluring and captivating but demoralizing in the extreme; a combination of impractical heresies that would fall apart of their own weight at any time when left to themselves as they have done during present unrestrained administration. The free trade heresy, with which the party is tinctured, has resulted in more mischief since 1892 than any other feature. The bars of protection have been removed, and as a result the home market has been demoralized to an extent that will require many years to repair. Labor has lost, capital has depreciated, industries have been blotted out, the government has incurred a heavy debt, and the American citizen is yet to be found, who has in any way been benefited. It is perfectly natural, under such circumstances, that the ranks of the democratic party should be depleted, and the 60,000 republican majority in Wisconsin last fall, with similar land slides in thirty other states, is readily explained.

There is a great deal of philanthropy about the democratic party and it is possible that a few centuries hence, when the brotherhood of man becomes the governing principle of nations, that this great reform party may be in demand, but in these closing years of the nineteenth century the interests of American labor should be considered of more importance by American statesmen; than the interests of any other nation on the globe.

The man who provides first for his own home, is called a good citizen. The same principle is true when applied to a political party. The home of 70,000,000 people, prosperous and happy, is worth protecting, and the party that fails to recognize this important fact deserves defeat and humiliation.

A Pure Baking Powder.

Their is an exhibition of Perfection baking powder, Perfection extracts, and Diamond brand coffee, by Miss M. Abbey, now at Ball & Bates grocery store. Miss Abbey will remain there several days and she would like to have every lady in the city call on her, partake of her biscuits and coffee and examine the extract. The perfection baking powder and extract is the product of Sprague, Warner & Co., Chicago, and they are the best in the world. No baking powder or extract is as pure or as good. Miss Abbey uses Java and Mocha coffee from this same house which is also superior to all others. You will enjoy yourself by calling there and also be well entertained.

W. M. LAUGHLIN TO LEAVE SOON

The Gazette's Advertising Manager To Go To Green Bay.

W. M. Laughlin, the wide-awake advertising manager of The Gazette, has accepted a similar position on the Green Bay Gazette and leaves for his new field of work about the middle of next week. Mr. Laughlin has devoted his life to newspaper advertising, making the art a study, until he is recognized as an expert. He is a tireless, intelligent worker, and combines many qualities necessary to the success of the advertising solicitor. His work for The Gazette during the past eighteen months, has been very satisfactory. Through his energy the paper has been able to enlarge to an eight-page edition and to take rank with the best inland papers in the northwest. He has demonstrated beyond question that judicious newspaper advertising pays, and many Gazette patrons who have spent their money freely, have been benefited in their business, which showed a healthy increase in spite of hard times. The Green Bay Gazette, under the management of W. E. Gardiner, for many years connected with the Evening Wisconsin, is rapidly coming to the front. Mr. Gardiner was in need of a good advertising man and is fortunate in securing the service of Mr. Laughlin. He will do good work for the Green Bay merchants.

Harry H. Bliss, who has had charge of the circulating department of the paper, will be Mr. Laughlin's successor and will assume his duties as soon as Mr. Laughlin leaves for his new field.

His parents interceded to save him from a charge which would send him to state's prison.

PONY HAD A PECULIAR DISEASE

Dr. E. D. Roberts Has a Case That Is Sel-dom Equalled.

Dr. E. D. Roberts is treating a peculiar case of equine illness, the patient being one of the Galbraith ponies. The animal had been sick for some time, but nothing was thought of it until the hired man discovered the animal lying down in his stall, its body being swelled to a third more than the normal size. Then Dr. Roberts was notified of the case. He found the pony's skin puffed out so that the eyes were nearly closed and when the surgeon's knife was brought into use, volumes of gas escaped, relieving the animal to a great extent. The pony is now on the road to recovery, but veterinarians say the case is out of the ordinary run.

HEAT WAS TOO MUCH FOR JOHNNY DULIN

LITTLE BOY SUFFERS A CASE OF SUNSTROKE.

He Was Running to Summon a Doctor to Attend to a Playmate Whom He Thought Was Injured, When He Fell Prostrate in the Road and Had to Be Carried Home.

WHILE running at top speed to summon a doctor for a little comrade whom he supposed to be injured, little John Dulin toppled over in the road this morning and is now suffering from sunstroke. A number of boys were playing together when one of them was thrown violently to the ground, rendering him insensible. At the time of the accident it was thought the boy was seriously hurt and little Johnny at once ran to get a physician. He had gone but a short distance when he was seen to fall prostrate and when help reached him he was suffering greatly. He was at once taken to the home of his father, Peter Dulin, 252 Linn street and Dr. Edden was called. After examination the doctor pronounced it a case of sunstroke, saying that the heat and excitement had been too much for the boy. At last accounts he was resting as easy as could be expected.

LA POINT ARRESTED AND HELD IN BONDS

BELOIT MAN CHARGED WITH HELPING ALLEGED THIEVES

Belvidere Officer Claims That He Was Mixed Up in the Attempted Poplar Grove Bank Robbery—Alleged Pickpocket in Jail Here—Police and Court News.

Beloit, June 8.—[Special]—William La Point, who has long been suspected of being a "fence" for the thieves that hang about the state line, was last night arrested for complicity in the Poplar Grove bank robbery, and held in bonds of \$1,000. The two men previously captured were placed under bonds of \$2,000 each, when their cases came up at Belvidere.

William Doneley is now staying in the Rock county jail for playing the part of a pick-pocket. He and three alleged pals were returning from the Woodmen picnic at Madison and they stopped off at Beloit. During their wanderings through the Line City, it is alleged that Doneley tried to steal John Myers' gold watch. Marshal Appleby made his appearance about this time and arrested the young man, who had the watch. The other three could not be held for there was little evidence against them, but they were all seen together at Madison.

Sheriff Appleby arrived in the city yesterday from Beloit with Tim Murphy. He spent the night in jail and was taken to the Keeley cure at Waukesha this morning. Tim got his last "jag" on at Beloit, and says he hopes the change will benefit his health.

The police have received notice to be on the lookout for James Bridgman who made his escape from Mendota, June 1. A reward of \$25 is offered for his capture.

The end is not yet in the Ames-Teeter assault and battery case from Clinton. Late yesterday afternoon, the jury before whom the case was tried in the municipal court, found the defendant guilty, whereupon Judge Phelps sentenced Ames to pay a fine of \$1 and costs. Fourth ward boys were taught a lesson this afternoon in the municipal court which will undoubtedly put a stop to their ball playing in the park. Warrants were issued for the arrest of Otto Berkness, Joseph Delaney, Thomas Flaherty, Thomas Whalen, Charles Hoveland and James Sherman, charged with violating the city ordinance in relation to ball playing in the streets and public grounds of the city. Berkness and Delaney pleaded guilty and Judge Phelps imposed a fine of \$1 and costs. The other boys failed to show up, and may not fare as well when they do.

The case of the state against James Nevels, of the town of Beloit, who is charged with cruelty to animals, is on trial this afternoon in the municipal court.

HARSH TALES TOLD OF PROF. BISCHOFF

HIS DIVORCED WIFE "DREADS THE DISGRACE."

The Separation, She Says, Has Been Of But Three Weeks' Duration and Propriety Is Not Being Observed—Miss Boyd, the Bride To-Be, Is Young, Pretty and an Heiress.

The proposed wedding of Prof. A. W. Bischoff has set Washington agog, and there is some rather unpleasant comment indulged in.

The friends of Mrs. Bischoff are especially loud in their denunciation of the professor. It is a well known fact that he has been legally separated from his former wife only about three weeks, and they say that he has gone beyond all bounds of propriety in even contemplating this course. Mrs. Bischoff has not lived with the professor for almost three years, but a separation by law was never effected until three weeks ago. By the provisions of the divorce she will receive each month a sum sufficiently large to enable her to live without work, but her friends are not in the slightest degree placated by this provision. Mrs. Bischoff said:

"I am not surprised to hear the announcement. In fact, I have been expecting it, now that I have secured a separation from Professor Bischoff. At the time of our domestic infelicities I was aware that Miss Boyd was the cause of them all. She has been a student at his establishment for eight years, and I knew several years ago that they loved each other, and that he was desirous of ridding himself of me. My only regret is for my children. The disgrace which they will necessarily be subjected to is a source of much worry to me."

Further than that Mrs. Bischoff refused to discuss the question. An intimate friend of hers, however, did not hesitate to speak freely of the matter.

The Bride An Heiress.

Miss Boyd, the bride-to-be is at present sojourning at Saratoga, N. Y., where she will probably remain until the day set for the wedding. She is the daughter of John Boyd, an attorney residing at No. 1417 Rhode Island avenue, northwest and Miss Boyd has been a pupil of the professor's for over two years. Miss Boyd is a soprano singer in the choir at the Congregational church, and is a vocalist of some repute. She is quite a pretty young lady of about twenty-two years of age. The intimate acquaintances of the Boyd family say that the young lady's parents look very favorably upon the match; in fact, it is an open secret that Mr. Boyd will present the two with a check for \$50,000 upon the day of the wedding.

DR. H. M. SCUDDER, SR. IS DEAD His Son's Crime Is Said to Have Hastened His Demise.

Dr. Henry Martyn Scudder, Sr., father of Dr. Scudder, the murderer of Mrs. Dunton, died at his home at Winchester, Mass. The murder nearly broke the father's heart, as well as breaking down his health, and although he always believed his son innocent of the crime, he never fully recovered from the effects of the shock. Following the affair he retired from the ministry and removed to Winchester where he lived with his wife and daughter until his death.

OGDEN H. FETHERS WAS THEIR CHOICE

GRAND LODGE OF KNIGHTS OF PYTHIAS ENDORSE HIM.

Resolution Introduced and Passed Requesting the Delegates to the Supreme Lodge to Use Every Effort to Secure His Election as Supreme Vice Chancellor.

Just before the close of the session of the grand lodge, Knights of Pythias, the following resolution, formally endorsing Ogden H. Fethers for the position of supreme vice chancellor of the order, was introduced by Representative Frank S. Dunbar of Superior. It will be remembered that the name of Mr. Fethers was mentioned in connection with this position some weeks ago and that he was formally nominated for the place by the Pythian Pen, an organ of the fraternity published at St. Paul, where the next supreme lodge will meet. Mr. Dunbar's resolution is as follows.

WHEREAS, Our supreme representative, Ogden H. Fethers, has made in the supreme lodge a record of which this grand lodge is proud, and it being apparent that he is already under consideration by many members of the order throughout the country for election to one of the high offices in the gift of the supreme lodge, and

WHEREAS, We deem his election to one of the executive offices of the supreme lodge to be for the benefit of the order throughout the world, therefore be it

Resolved, That our representative to the next convention of the supreme lodge be, and they hereby are requested to use every proper and reasonable endeavor for the election of Supreme Representative Ogden H. Fethers to the office of supreme vice chancellor.

This was adopted unanimously, and by a rising vote of the grand lodge, amid considerable enthusiasm, as Mr. Fethers' work in the supreme body of the order is highly appreciated by the members in Wisconsin.

H. I. Weed, of Oshkosh, was elected supreme representative from Wisconsin in place of Mr. Fethers, whose term expired at the session of the grand lodge just held. F. B. Hoskins is the other supreme representative, he holding over one more term.

The most important legislation, in addition to the adoption of the new constitution, was the adoption of a resolution reducing the per capita tax of subordinate lodges for the maintenance of the grand lodge from 50 cents for each member per year to 30 cents.

The recommendation of retiring Grand Chancellor Crahan that American flags be displayed at every opportunity by the lodge was heartily endorsed by the grand lodge and the committee on lodges was instructed to see that every station of officers in every lodge room is draped with the flag of the nation. The election of Chancellor Schroeder was unanimous and the stories about a contest had no foundation.

VACCINATION CASE BEFORE THE COURT

VALIDITY OF THE STATE BOARD'S ORDER ATTACKED.

E. J. Adams, a Beloit Christian Scientist, Refused to Comply and Carried the Case Into Court—Mandamus Proceedings Are Now Being Heard.

The somewhat celebrated Beloit vaccination case is now before the circuit court on mandamus proceedings, and is being closely contested, it being intimated that it is to be made a test case, and will be carried up to the supreme court. It will be remembered that some time ago the state board of health adopted an order, or resolution, requiring all children attending the public schools of this state to present a certificate of some doctor or health officer certifying that they had been successfully vaccinated, and that a failure to comply with this rule would be sufficient cause to exclude the pupils so failing, or refusing to comply, from the schools. The school board of Beloit adopted a resolution to enforce this order. E. J. Adams, a Christian scientist of Beloit, had three children attending the Beloit city schools. He refused to comply with the order and the school board expelled his three children. Adams then secured a mandamus citing the school board to show cause why his children should not be admitted to the schools. Pending this proceeding Judge Bennett issued an order directing the board to admit the children of Adams to the public schools.

The question now before the court is on the original mandamus proceeding, for the school board of Beloit to show cause why the children of Adams should not be admitted, notwithstanding the fact that they had failed to comply with the rule of the state board of health.

The case is entitled "The State ex rel E. J. Adams, against R. J. Burdge, et al, the school board of Beloit." Fethers, Jeffers, Fidelity & Matheson appear for the plaintiff and J. C. Rodd and William Ruger for defendants. The question of paternalism as well as many other points are to be raised in this case, making the result one of interest to the public. Drs. Wingate and Marks of Milwaukee, members of the state board of health are present, watching the proceedings. The case will not end today.

TELEGRAPH MATERIAL IS HERE.

Probably Begin Work on the River Street Wires Monday.

The Western Union Telegraph Company has forwarded material for the reconstruction of their North River street lines, and it is expected workmen will commence work on Monday. A cable similar to the one used by the telephone company in crossing the Milwaukee street bridge, will be used, which will be put up a sufficient height to permit the firemen to raise their heavy ladders.

This Woman Was Thrifty.

Current News reports the significant saying of an old lady who was locally famous for her good health and exceeding thrift. An acquaintance was congratulating her upon her freedom from bodily ailments when she replied: "We be pretty well for old folks, Josiah and me. Josiah hasn't had an ailin' time for fifty years, kept last winter. And I ain't never suffered but one day in my life, and that was when I took some of the medicine Josiah had left over, so's how it shouldn't be wasted."

His Worst Fears Realized.

"Are you having any more trouble with your corns, Emily?" meekly inquired Mr. Winterbottom. "No, they haven't hurt me any for the last day or so," replied his good wife.

With a patient sigh Mr. Winterbottom put his best razor back in its case and tried another. It was as he had suspected.—Chicago Tribune.

Mother Nature, Ever Fruitful

In beneficence to mankind, has given birth to one which, developed by art, has been prodigal in health, yielding benefits to the race. No voyager, sea captain, commercial traveler, or tourist seeking pleasure and health, should fail to be self-provided with this grand botanic restorative and preventive, Hostetter's Stomach Bitters, which counteracts the effects of malarious air and brackish water, unwholesome or unvaried diet, exposure, the fatigue of travel, and the disturbance of the stomach caused by rough weather at sea, and sometimes by railway traveling over a rough road bed. Mariners, miners and western pioneers bear concurrent evidence to its defensive and reparative influence. Chills and fever, rheumatism, inactivity of the kidneys, biliousness, dyspepsia and indigestion are all relieved by its incomparable fine alternative, corrective and invigorant, which physicians highly commend.

A Wonder.

"I tell you," said Mr. Proudpaugh, "that boy of mine is a wonder. He has the signs of extraordinary genius stamped all over him in display type."

"Indeed? He must be a phenomenon."

"He is. He is only six years old and writes a hand like Horace Greeley's and sings worse than Trilby."—Washington Star.

PAINT cracks.—It often costs more to prepare a house for repainting that has been painted in the first place with cheap ready-mixed paints, than it would to have painted it twice with strictly pure white lead, ground in pure linseed oil.

Strictly Pure White Lead forms a permanent base for repainting and never has to be burned or scraped off on account of scaling or cracking. It is always smooth and clean. To be sure of getting strictly pure white lead, purchase any of the following brands:

"Southern," "Red Seal," "Collier," "Shipman."

For Colors.—National Lead Co.'s Pure White Lead Tinting Colors, a one-pound can to a 25-pound keg of lead and mix your own paints. Saves time and annoyance in matching shades, and insures the best paint that it is possible to put on wood.

Send us a postal card and get our book on painting in color-card, free; it will probably save you a good many dollars.

MONEY MADE AT HOME.

Last month I cleared, after paying all expenses, \$235.38; the month before \$186.86 and have at the same time attended to my regular business. I believe anyone, anywhere, can do as well, as I have not a particularly good location and not much experience. When you have an article that every family wants, it is very easy selling it. It seems strange that a good, cheap dish washer was never before placed on the market. With the Perfection, which sells for \$5 you can wash and dry the dishes for a family in two minutes, without putting the hands in water. As soon as people see the washer work, they want one, and that is why so much money can be made so quickly. For full particulars address The Perfection Mfg. Co., Station O, Englewood, Ill. I feel convinced that any lady or gentleman, in any location can make \$5 to \$10 a day, as every family will very soon have a dish washer. Try it and publish your experience for the benefit of others. ALICE O.

Lr H. R. Fish of Gravois Mills, Mo., a practicing physician of many years experience, writes: De Witt's Witch Hazel Salve has no equal for indolent sores, scalds and burns. It stops pain instantly, heals a burn quickly and leaves no scar. C. D. Stevens.

If the Baby is Cutting Teeth,

Be sure and use that old and well tried remedy, Mrs. Winslow's Soothing Syrup for children teething. It soothes the child, softens the gums, allays all pain, cures wind, colic and is the best remedy for diarrhea. Twenty-five cents a bottle.

GOSSIP OF THE DAY IN TOWN

We are today showing over seventy distinct lines of hosiery. You can find what you want. All kinds, all shades, all prices. You can find them at 5 cents; you can find them at \$4; you can get any price between. Men or women, boys or girls, we have hosiery bargains for you all. Bort, Bailey & Co.

The opportunities that are presented to the consumer these days in Janesville are many, especially in the shoe line. When a person can wear the finest shoes there are made and buy them for one-half what any other shoe dealer would have to pay, we think it's cheap; but that's just what we are doing. This can be proven to you if you'll step inside. Becker & Woodruff.

We are today offering many great bargains in hosiery. Men's at 5 cents worth 10 cents; men's at 10 cents worth 20 cents; ladies' at 19c worth 25 cents; misses' at 19 cents worth 25 cents. We have all the special styles and every price from 5 cents to \$4.00 per pair. Bort, Bailey & Co.

Our object is to sell shoes and to sell the best there is. How near we have succeeded in doing this we have only to refer you to our customers. We have been in the shoe business a long time and never have we seen such values—50 cents on the dollar of factory cost. Becker & Woodruff.

This day will go down as the best yet; everybody seemed to want shoes, and they all wanted those fine ones we are selling at 50 cents on the dollar; actually the greatest bargains in the shoe line in this section. Becker & Woodruff.

HENNEY buggies are the most beautiful vehicles known to the trade. They are all well built, and when you pay \$100 for a Henney you have just as good a buggy as if you paid \$150 for some other make. F. A. Taylor.

People say they don't see how we can sell children's shoes so cheap. We will answer that question. We bought them right when prices were low and we divide the profit with our customers. Lloyd & Son.

Our \$4.50 tan men's shoes won't last long at \$3. People say they are the best they ever saw for the price. We have all sizes yet. Lloyd & Son.

There is no question about our soap being the best ever sold for the money. Prentice & Evenson.

We don't deceive the people on our soap sale by putting in a five cent soap. Prentice & Evenson.
